

HANCOCK

BOND ISSUE CARRIES BY
VOTE OF FIFTY-TWO TO ONE

Special Election Yesterday on Issue of Bonds for New West Hancock Schools Results as Expected—Bond Decides to Purchase Johnson Heat Regulator—Special Fire Drill Given.

The special election held yesterday for the purpose of passing upon the proposition to issue bonds in the sum of twenty thousand dollars for the erection of the new west Hancock school house, resulted as was anticipated, being carried by an almost unanimous vote. The total number of ballots cast was fifty-three of which fifty-two were in favor of and one against the proposition. The vote yesterday was somewhat larger than at the first election for the same purpose last spring, when forty-seven votes were cast, all in favor of the bond issue. There was no question or doubt but that the school district favored the bonding proposition, but in order to leave no loophole for difficulty on account of technicalities the board held the election in order to be on the safe side.

The polls were open from 9 in the morning until 8 in the evening and voters dropped in intermittently during the day. Jacob Baer, president of the school board, Thomas Coughlin, secretary, and Judge G. C. Bentley acted as a body of election inspectors, but they were not kept so busy that you could notice it during the day's session.

Fire Drill Given.

Superintendent Larowe surprised the board by giving a fire drill yesterday afternoon, while the election was in progress, and the rapidity with which the high school building was emptied caused the members of the board of education much pleasant surprise. Inside of fifty-five seconds the entire six hundred or more pupils in the building had been gotten outside, some leaving by the fire escapes in the rear and some by the main stairway in front. One member of the board was in the commercial department at the time, and was in conversation with one of the instructors when the alarm signal was sounded. He did not realize at first what was in progress and when he looked around to see what was the cause of the disturbance the room was almost deserted. Within three minutes every one of the pupils was back in school again busy with their studies.

Will Buy Heat Regulator.

The school board decided after the conclusion of the election, when they met to canvass the vote, to purchase the Johnson heat regulating system for the local schools. The matter has been under consideration for the past month during which time members of the board have examined into the merits of the system, and have found it possesses in any advantageous features. The system consists mainly of thermostats placed in each room, with an indicator set for a certain temperature. When the temperature rises above such point the heat is immediately shut off automatically, and similarly when it drops, a reverse action takes place and the heat is thereby maintained uniformly at the desired temperature.

JOE HAMBITZER'S CARTOON.

On the wall of Justice Oliver's office is a small cartoon drawn by Attorney J. H. Hambitzer apropos of the famous Tillman dog case that has been appealed to the higher court. Mr. Hambitzer was one of the attorneys in the case, and is shown at one side of the picture with a grin on his face, while on the opposite side is "Attorney B." with a scowl. The big greyhound that was the cause of all the trouble is depicted with a big chunk of meat in its mouth, labeled "Tim Holland's meat," and underneath the picture is the title, "On the way to the higher court." The picture has allusion to the bill of Tim Holland for a \$17 meat bill for feeding the dog for a month or so. "Attorney B." is shown as characterizing it as a "d— outrage."

Reckmeyer's
FURS—Milwaukee

If you intend to purchase anything in fur this season it will pay you to come to Milwaukee and inspect our unusually large display of fine furs and rich and exclusive styles—an immense assortment of small fur and garments in the latest Parisian models. Reckmeyer furs always carry the stamp of quality and reliability. You get the choicest there is—the most approved style—at prices below the average for equal quality. It would be a profitable trip to run into Milwaukee just to see this large display of elegant furs. You will be repaid many times in satisfaction and in actual saving. Or if you will tell us your wants we will quote you the lowest possible price on what you desire, by mail.

WM. RECKMEYER COMPANY
101 Wisconsin Street Milwaukee, Wis.

CHEMICAL ENGINE ARRIVES;
DEMONSTRATION ON MONDAY

The new chemical fire engine of the Hancock department arrived this morning over the Copper Range railroad, and this morning was brought over to Hancock by one of the city teams, driven by Joe McGrath. The engine was not brought to the Hancock freight depot because of the car of which it occupied half contained a consignment of freight for Houghton parties, which had to be removed before the engine could be taken from the car.

The engine is a very handsome piece of fire apparatus and attracted considerable attention as it was hauled through the streets to the fire station. It is handsomely finished in brass and nickel work. It is a double cylinder thirty-five gallon engine and will be of great value in handling fires in an incident stage and in beginning work on fires before the heavier apparatus arrives on the scene.

Chief Mitchell of the Hancock fire department has set Monday afternoon at 2 o'clock as the time for the demonstration of the engine by Thomas Roch, the agent of the company manufacturing the engine, who arrived here the early part of the week. Mr. Mitchell is endeavoring to arrange to have the demonstration take place on the property of the Dakota Heights company east of the Kerredge theater. A number of the fire chiefs of the county to whom invitations were sent to witness the demonstrations have expressed their intention to be present. The engine is the first of the kind to be brought to the copper country and it is therefore the subject of considerable interest on the part of those connected with the fire departments of the various towns of the county.

HANCOCK CHURCH SERVICES.

The subject for the morning address by Rev. J. S. Gould at the Hancock Congregational church tomorrow morning will be "The Reward of Diligence." Diligence is the mother of Good Luck," Benjamin Franklin. The evening subject will be "Judas, the Traitor," in the series of "New Testament Undesirables," that have been a feature of Sunday evening discourses during the month of October.

ON IMPORTANT COMMITTEE.

T. G. Gregory of this city was appointed a member of the committee on finance, at the Odd Fellows grand lodge meeting held last week at the Soo, by Grand Master Coburn. Mr. Gregory attended the convention as representative of Mystic lodge and as a member of the committee on appeals and at a meeting of Mystic lodge this week gave a report of the proceedings at the sessions of the grand lodge. One of the cases that came under the jurisdiction of the committee on appeals was that of William H. Flynn, the retiring grand master, who was fully vindicated.

PRIMROSE MINSTRELS.

Primrose's Minstrels played to a big audience at the Kerredge last night and gave a very pleasing performance. Primrose himself, in spite of advancing years is still the same graceful dancer, notwithstanding that he is not capable of sustained effort to so great an extent as in his earlier days. He was given a very cordial greeting, being warmly applauded in his several specialties. His "Famous Minstrels," past and present, in part two was a very interesting number. Gov. Bowen (of Kentucky) was one of the star performers and made one of the biggest hits of the evening, and "Eddy," the male prima donna, was a decided novelty. The musical specialties and vocal numbers were well given and the entire performance afforded an evening's enjoyment of genuine old time minstrelsy.

M. E. CHURCH SERVICES.

On Sunday the usual order of service will be observed at the First M. E. church, consisting of class meeting at 9:30; public worship at 10:30; sermon topic, "Creation and Conservation of Conscience." Sunday school, 12 m.; Junior league, 2:45; Senior Epworth league, 6:30; public worship 7:00, topic, "The Triumphant Church."

Monday night the literary meeting of Epworth league; Tuesday, class meeting, Wednesday afternoon, Ladies Aid society, Thursday at 4 o'clock, Junior league, 7:30 prayer meeting. Every effort is made to have all of these services as helpful as it is possible to make them.

JUNIOR TEMPLE OFFICERS.

The following officers have been elected by the Junior Temple of Honor of the Quincy for the ensuing year: Worthy archon, Albert Nancarrow; vice archon, Harold Nicholls; worthy recorder, Bert Fuldge; assistant recorder, James Warwick; financial recorder, Jos. Tippet; assistant financial recorder, George Pryn; worthy usher, Richard Martin; assistant usher, James Reid; inside watch, Clyde Hodge; outside protector, John Jenkins; past worthy archon, Chester Kendall. The installation of the above officers, also those of Columbia temple will take place next Tuesday evening.

PEWABIC CHURCH SERVICES.

At the Pewabic Methodist Episcopal church on Sunday the services will be as follows: Class meeting at 9 o'clock; morning preaching services at 10:30, with sermon by the pastor, Rev. M. H. Eldred, on the subject, "The Fear of Death." Sunday school session at 2:30. In the evening at 6:30 the pastor will preach on "Is the Young man Safe."

IMPORTANT

PERSONAL—If you are afflicted with BLOOD POISON, in any stage, LACOMOTOR ATAXIA, NECROSIS, PARALYSIS, RHEUMATISM, in any form, CATARRH, MALARIA, JAUNDICE, TUBERCULAR or ENLARGED GLANDS of any kind or from any cause, or any of the worst forms of blood disease, you can learn of a permanent and positive cure and receive 108-page book FREE of all cost by addressing,

Salvar Medicine Co.
Salvar Bldg., St. Louis, U. S. A.

being the first of a series of three sermons to young men.

WILL ELECT OFFICERS.

The Pewabic Brotherhood will meet this evening at half past 7 o'clock, at which time officers will be elected to serve for a term of six months. The society is one of the most active and enthusiastic of the Pewabic church auxiliary bodies and has a large membership among the men of the congregation. Connected with it is the bible study class organized about a year ago at the time of the visit of Herbert Moninger, and the Saturday evening sessions invariably well attended.

BELATED STEAMERS ARRIVE.

The barge Sweetheart arrived this morning at the dock of the People's Fuel company, and is discharging a cargo of coal. The Locomotive, her consort, is at the Cleaves foundry dock in Ripley, with a couple of hundred tons of coke, after discharging which she will leave a coal cargo at the People's Fuel company dock. The steamer Pioneer, with coal for the same concern is expected to arrive here today. All three boats were expected earlier in the week but were delayed by storms in Lake Huron. The Pioneer was compelled to run back into Port Huron last Saturday after being out twenty-four hours, on account of the disabling of the steering gear of the Chattanooga, which vessel she had in tow. The latter had to be cast adrift and crashed into the Canadian passenger steamer Hamonic. Several plates of the Hamonic were broken and also the wooden paneling of the barber shop of the steamer. The Chattanooga was found to be leaking badly on the port side and it was necessary to make repairs before she could proceed. The Pioneer waited until the repairs were made, and both boats are expected here today.

HANCOCK BREVITIES.

The subject for the regular Monday evening meeting of the Pewabic Epworth league next week will be "The Rich Poor and the Poor Rich." Miss Hilda Nichols will be the leader for the evening.

The Women's Home Missionary society of the Pewabic Methodist church will meet on Tuesday evening at the home of Mrs. Frank Nancarrow, Sr.

The work on the new line of the Houghton County Traction company near Franklin is being delayed on account of the rails not arriving as expected, and it is likely that the line will not be completed until the middle of November, instead of about the first as was expected.

The Halloween card party given last evening by the ladies of St. Patrick's church in the parish hall was a very enjoyable and successful event. There was a large attendance and all enjoyed greatly the features of the entertainment. The hall was decorated with devices associated with the Halloween period, and were very tastefully and attractively arranged.

Only routine business was transacted at the meeting of the Portage Lake Business Men's association held on Thursday evening in the office of the secretary in the Kauth building.

A young man residing in Ripley was arrested yesterday charged with issuing a check without having funds in the bank with which to meet payment. The amount of the check was ten dollars, and it was presented at the Cafe du Nord a couple of nights ago with a request to have it cashed. Later it was found that it was worthless. He was fined and obliged to make good the amount advanced him on the check.

The regular meeting of the council will be held on Monday evening next. One of the principal matters to come up will be the receiving of bids for an additional ten thousand dollars of water extension bonds bearing interest at five per cent. A certified check for two per cent of amount must accompany each bid.

The local hardware and sporting goods stores are showing a large variety of hunting paraphernalia in anticipation of the opening of the deer season on November 10.

The November term of the circuit court will open a week from Monday. The criminal calendar is a very light one, the principal case being that of Charles Leinonen charged with complicity in the murder of Herman Mattson at Calumet on August 22 last.

Quick Relief

for an upset stomach, hiccoughs, a sick headache, constipated bowels, or a bilious attack is secured by using

BEECHAM'S
PILLS

Sold Everywhere. In boxes 25c. and 50c.

THE CALUMET NEWS.

"Jack" Fitch a comedy roller skater, will open a week's engagement at the Amphidrome on Monday night.

Mr. and Mrs. James M. Chapman of Laurium took out deer licenses this morning in the county clerk's office. Mrs. Chapman is the third woman in the county to receive a deer license this fall.

Mrs. J. Hickey, Sr., of Michigamme is visiting at the home of Miss Annie Rentenbach.

Postmaster Rogers is at Duluth attending the dedication ceremonies of the new Elks temple.

Rev. J. S. Gould of the Hancock Congregational church attended the semi-annual meeting of the Lake Superior Congregational association at Calumet yesterday.

Mrs. J. G. Johnson of the Quincy left yesterday for Iowa, having received news of the sudden death of her mother.

A little shaver arrived yesterday morning at the home of Will J. Carroll, the barber, and wife at their home in West Hancock.

The fire escapes for the Scott hotel and the Scott block, recently ordered by A. J. Scott through R. H. Yates of this city, arrived this morning and will shortly be erected by Gauthier Brothers.

The Hibernian indoor baseball team will hold a practice tomorrow afternoon in Germania hall, when the line-up for the season will be selected. The other teams are practicing regularly and all the teams will be in shape for the opening of the season next Tuesday night. The Knights of Columbus had a workout on Thursday night and the Foresters last evening.

Oscar Mondaux, day clerk at the Scott returned yesterday from a brief business visit to Marquette.

Miss Maggie Kane of Norway and James Kane of Butte are visiting at the home of C. T. Harrington.

Mr. and Mrs. Kaarlo Nikkinen of Wright street are the parents of a baby daughter.

Ray Klinghammer has taken a position as pianist at the Savoy theater.

It is the intention of the Copper Country Methodist Ministers' association to hold all its regular monthly meetings in Hancock, with luncheons at the Scott hotel, unless otherwise arranged. The November meeting will take place on Monday next, at which time Revs. Hart and Magann, the evangelists who are now holding successful meetings in Calumet, will speak on Evangelism. The hosts for the occasion will be Revs. E. Sedwick of Calumet, A. R. Sutcliffe of Grace M. E. church, Houghton and James Pascoe, general superintendent of the district.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by Eagle Drug Store, Calumet, and Laurium Pharmacy, Laurium.

TORCH LAKE NEWS

NEW BANK OF HUBBELL
WILL BE OPEN MONDAY

The First National bank of Hubbell will be opened Monday morning for the transaction of business, according to the statement of Cashier Selden B. Crary. The contractors have completed their work, the fixtures have all been installed and everything will be ready for business by that time. The new bank is one of the finest structures in the village of Hubbell.

Contractor Amolech of Laurium had the contract for the exterior work on the building and the hand carved stone is some of the finest of the copper country, the work having been done by experts. The interior was finished by Charles Anderson of Calumet and while he was delayed with his work owing to the non-arrival of material good progress was made when the goods arrived. A tile floor is used in the banking quarters and just inside the main entrance, there is a vestibule where stationary seats are imbedded in the side walls, with seating capacity for several persons.

The furnishings in the bank proper are of solid oak, and the fixtures are of the same material with a different finish. The cashier's office is located in the front of the structure, while the director's room is stationed at the rear. This is very attractively finished and has an open fire place. The structure throughout is steam heated and will be found comfortable and convenient in every respect.

The second story is fitted up for office purposes and contains five rooms. The books of the bank will be moved to the new building tomorrow morning.

TORCH LAKE BREVITIES.

The funeral of the late Henry Meyers, who died suddenly at Alston yesterday morning, will be held tomorrow afternoon. The members of Lillian tent of Maccabees will attend the funeral in a body.

Christ Wolf of Chicago of the firm of Wolf-Sayer & Heller, manufacturers of butchers' supplies and store furnishings, was a business visitor in Hubbell this morning.

The steamer Wilbur Smith is discharging a cargo at the smelts dock in Hubbell.

Prof. H. D. Lee of the Lake Linden schools is expected home this evening from Saginaw where he went to attend the teachers' convention.

The steamer Warner, also schooner Thompson are at the docks in Hubbell discharging cargoes.

The Misses Minnie Robinson and Amy Wearne of Calumet spent this afternoon visiting with friends in Lake Linden.

CURRENT GOSSIP OF THE COPPERS

Continued from Page 2.

OJIBWAY—

In extending the crosscut at No. 1 shaft of the Ojibway at the 800-foot level a fault was encountered which threw the course of the lode. Up to this writing the vein has not been found again, but the management is quite confident that it will be located soon. No. 1 shaft is now about 1,200 feet deep. It will be sunk to the 1,350-foot level where sinking will be discontinued for the present and all efforts centered on lateral work.

No. 2 shaft of the Ojibway will in a few days cut the station at the 1,350-foot level, and as at No. 1 shaft will discontinue further sinking that all efforts may be centered on extending drifts both north and south. At the 800-foot level the drift is in between 500 and 600 feet toward No. 1 shaft and is opening up some very satisfactory copper ground.

According to the annual report Ojibway had approximately \$100,000 on May 1 of this year. The company is spending at the rate of \$7,000 per month so that a call for further funds will be in order early in the coming year.

Ojibway has about 16,000 shares of its 100,000 shares unissued. This stock is retained to acquire a tract of 160 acres adjoining its property. Negotiations have been pending for some time for this land but were held up pending the adjustment of the differences between the Calumet & Hecla and Osceola companies when the Higelow interests controlled Osceola. This tract in question is held by Osceola, but is so isolated that it is of little use to that company. Ojibway can sink two more shafts when this additional acreage is obtained. It is understood that the Calumet & Hecla is willing to permit the transfer of the property to be made to the Ojibway. The C. & H. may obtain for the land either the 16,000 shares of Ojibway or an equivalent amount in cash. The weakness in Ojibway during the past week has been due probably to the report of No. 1 developments being misconstrued.

MIAMI—

There has been a question raised as to the ability of Miami getting the most satisfactory results from the treatment of its ores. It is claimed that the ores may be found somewhat refractory. The company has been experimenting for months past with a small experimental concentrator, and it is possible that the report came from knowledge of the results of this work. Of course the fact that the company is already building its concentrator detracts from the strength of this report. In any event it is a question which is worthy of considerable thought and investigation by the shareholders.

Miami has announced the plans of an issue of \$1,500,000 in bonds to shareholders. The sale of bonds came as a surprise to many stockholders, who believed the company was in need of no additional money. In a circular issued Aug. 15, 1908, the company offered for subscription 100,000 shares of stock at \$10 per share. In explaining the reason for the sale of this stock the circular reads: "for the purpose of supplying funds for the construction of a larger (concentrating) plant and carrying on operations on a more extensive scale." Of course the bonds will be quickly taken up but shareholders would like and certainly are entitled to know where \$1,500,000 was spent in a little over one year's time and no concentrator yet built.

WYANDOT—

The new vein cut in the long crosscut at the 700-foot level of the Wyandot proved to be twenty-nine feet wide. It carried some copper and gave encouragement of even better results when drifting was undertaken. The management proposes to begin lateral work on this lode at once with the purpose of ascertaining just what values can be expected from it. The veins so far

opened up in the district in which the Wyandot is located have been bunchy in character. The new lode is in the horizon of the Lake lode and for this reason much speculative interest is attached to the development under way.

WOLVERINE & ARIZONA—

The annual meeting of the shareholders of Wolverine & Arizona is called for Nov. 10 to be held at Bisbee, Ariz. The company is managing to meet exploratory costs from the shipment of ores developed. During the past year over \$10,000 was obtained from this work. The company has no debts but which could be liquidated with the cash on hand. The annual report just issued shows a balance of assets in excess of liabilities amounting to \$7,332.

In his report President John Daniell has the following information to impart to stockholders:

During the past year we have continued our main drift through the Warren and into the Georgia claim, a distance of 466 feet. The result of this exploration has been rather disappointing, as no leached formation or ore bodies have been found, and the drift was discontinued on account of the very hard line encountered. At a point in the Warren claim near the main ore body is a soft porphyritic formation carrying small silver lead values. A winze was sunk in this formation under the main tunnel with the expectation of obtaining another body of ore carrying copper values, but on reaching a total depth of 80 feet the winze was discontinued, nothing of value having been discovered. During the past 18 months of depression and financial stringency, it has been deemed expedient by your management to prosecute exploratory work as economically as possible, hence the expenses at the mine have been reduced to a minimum, and no assessments on the capital stock have been called since November, 1907, a period of about two years.

During the past summer the ore on the dump which accumulated while blocking out the ore body in the main tunnel, was shipped to the Copper Queen smelters at Douglas. A total amount of 497 tons of wet ore was forwarded, from which was received returns of 452 tons of dry ore, averaging 11.30 per cent in copper values, and netting your company \$16.70 per ton, or a total amount of \$7,520.87. There was also forwarded to the Copper Queen smelters from the ore body in the main tunnel, 289 wet tons of copper ore, returning 247 dry ore, averaging 10.25 per cent copper and netting your company \$13.88 per ton amounting to \$3,713.75, or a total of \$10,864.61 from all ore shipped.

This amount of money has helped very materially the development work at the mine, and released the stockholders from burdensome assessments during the dull period. The efforts of the management in the future will be directed towards further exploitation of the ore body in the main tunnel, sinking the winze in the leached line and porphyry under the main tunnel and connecting the main ore body with the Uncle Sam workings of Copper Queen mine, a distance of about 75 feet. This connection will give the Wolverine & Arizona an outlet through which all future ore shipments may be forwarded, and bring our present workings much closer to needed railway connections.

GRATIOT—

The construction of a spur from the Mohawk location to the Gratiot property is under way and will be completed before the close of the present year. This will make it possible for this Calumet & Hecla subsidiary to enter the producing ranks. It is likely that shipments will be made to the Calumet & Hecla mill. The Gratiot has already accumulated a considerable stock pile and is opening some good copper bearing ground. Underground openings to date disclose the Kearsarge lode carrying good values.

EMPLOYES OF THE
Calumet & Hecla Mn'g Co.

Who wish to sell their houses or buy houses on Co. Land; who have rooms to rent or who wish to rent rooms, are invited to advertise in this column without any expense.
